

DAY 08

Save for later

Build with AI: Research Reports

From raw idea to full report in 20 minutes

Hi, I'm Kainat!

Today we learn how to turn
raw ideas into deep research
reports with AI.

Get Ideas Fast

Deep Research

Make Infographics

Used by 500+ students

Swipe to learn all 4 steps

Scroll through all 12 slides for the full system!

What even IS

AI-Powered Research?

Think of it like having a
research assistant that never sleeps.

It reads, summarizes and organizes for you.

1

You give it a topic or question

2

AI searches and analyzes information

3

You get a structured report, ready to use

No subscription needed. Free tiers work great!

Lightbulb Moment

**Most people spend 3 hours
on research that AI does
in 3 minutes.**

AI reads sources, compares data,
and gives you a report with citations.

V

**You stop Googling for hours.
You start deciding faster.**

That is your new superpower as a student.

Before AI vs After AI

What you do	Before AI	After AI
Find ideas	Manual Google searches (hours)	AI brainstorms in seconds
Deep research	Read 10+ tabs yourself	AI reads & summarizes all
Structure report	Write outline from scratch	AI generates it instantly
Make visual	Hire designer or skip it	AI creates infographic

Which column do you live in right now?

Got a topic? Ask AI what to research first.
This gives you a solid starting point.

COPY-PASTE PROMPT

I'm planning a [new product/service] for my company.
What [risks or market trends] should I be aware of?
Give me 5 key areas to explore in depth.

Best tools for this step:

[ChatGPT](#)[Claude](#)[Gemini](#)[Perplexity](#)

All support free chat-based brainstorming

Keep the same chat open. You will need it in Step 2.

Pick one idea from Step 1 and go deep.
Use AI's Deep Research tools for this.

Gemini Deep Research

Builds a full report plan, then searches the web for you automatically.

Perplexity AI

Searches the web live with citations.
Great for current market data.

ChatGPT + Search

Browse mode searches recent articles and summarizes findings.

COPY-PASTE PROMPT

Research [specific trend from Step 1].
Use only sources from the last 2 years.
Include key stats and data points.

AI takes a few minutes. Grab a coffee in the meantime!

AI gives you a plan. You tweak it.
This makes your report 10x more useful.

1

Edit Plan

Focus on a specific angle or audience you care about

2

Set Time Range

Tell AI: only use sources from the last 2 years

3

Add Data Points

Ask for stats, charts, and consumer adoption data

4

Start Research

AI reads 10+ sources and writes your full report

One step at a time. The plan will get much sharper.

Data without visuals gets ignored.

AI turns your report into an infographic instantly.

Without AI

Design tool needed

Hours of layout work

Need to be a designer

Often gets skipped

VS

With AI

Click "Create Infographic"

Done in 60 seconds

No design skills needed

Looks professional

Tools: Gemini | ChatGPT | Canva AI | Napkin.ai

Best AI Tools for Research

Perplexity AI

Live web search with citations. Best for current market data.

Gemini

Deep Research mode builds full reports. Works with Google Drive.

ChatGPT

Great at structuring findings and writing the final report.

Claude

Best at reading long docs and summarizing complex topics.

All have free tiers. Start with Perplexity for the fastest results.

Your 4-Step Cheat Sheet

SAVE THIS

1

Brainstorm

Ask AI: What should I know about [topic]?

2

Deep Research

Use Deep Research mode. Get a full report.

3

Refine

Edit the plan. Set time range. Add data needs.

4

Visualize

Click "Create Infographic" on your report.

Pro tip: Run all 4 steps in the SAME chat to keep context!

Step 1

Open any AI tool: ChatGPT, Gemini, or Perplexity

Step 2

Type: "I want to research [topic]. Where do I start?"

Step 3

Pick one idea AI gives you

Step 4

Switch to Deep Research mode and go deeper

Step 5

Ask AI to turn the findings into an infographic

Share your research topic in the comments!

One Question For You

**Which step would save you
the MOST time right now?**

A. Brainstorming ideas

B. Deep Research report

C. Making infographics

Comment A, B, or C below!

Or comment RESEARCH for my full prompt pack.
