

Build with AI: Expert Advice

How to turn AI into your personal expert advisor

Hi, I'm Kainat!

Today we learn how to turn any AI into your personal **expert advisor**.

Explore Personas

Create Gems

What even IS a Gem?

Think of it like having a personal mentor available 24/7.

A Gem is a custom AI with a role baked in. You set it once, it stays in character.

1

You tell AI what expert you need (designer, coach, engineer r...)

2

AI fully takes on that expert's way of thinking

3

Every answer fits that expert's lens and your specific context

4

Share it with your team and reuse it endlessly

No subscription needed. Google's free tier works great!

This is kind of a big deal

10x

better answers when AI knows your exact role and context

Most people ask generic questions and get generic answers.
When AI has a persona, it challenges your thinking.

You stop getting Wikipedia-level answers.
You start getting mentor-level answers.

That is your new superpower as a student and professional.

Before AI vs After AI

What you need	Without a Gem	With a Gem
Design feedback	Generic tips from Google	AI thinks like a senior designer
Business advice	Vague suggestions	AI challenges your assumptions
Study help	Basic explanations	AI teaches like your tutor
Code review	Finds bugs only	AI reviews like senior engineer

Which column are you living in right now?

Explore an Expert Persona

Before building, ask AI to describe the expert you need.

This output becomes your Gem's brain.

COPY-PASTE PROMPT

What are the key characteristics of
[a highly competent expert role
relevant to your work]?

Example: "a highly competent UX designer"
or "an experienced startup mentor"

Best tools for this step:

Gemini

ChatGPT

Claude

Copy Gemini's response. You will paste it in Step 2!

Create Your Custom Gem

Open Gemini, go to the menu, select Gems, then click New Gem.

1**Give it a name**

"Interior Designer" or "Study Coach"

2**Write a short description**

"Give me interior design advice"

3**Paste your instructions**

Use Step 1 output as the Gem's personality

4**Save and test it**

Start a new chat and ask your first question

Your Gem stays in character for every future conversation!

Ask Your Gem Smart Questions

Start a new chat with your Gem. Here is a ready-to-use prompt:

COPY-PASTE PROMPT

What are the top factors to consider when selecting [a product or service relevant to your work]?

Challenge my thinking and point out anything I might be missing.

Ask for feedback

Poke holes in your ideas

Keep chat open

Context builds better advice

Share with team

Share via Explore Gems

One Gem used consistently beats 10 random AI chats.

Generic AI vs Expert Gem

Without a Gem

- Surface-level answers
- No context about you
- Generic suggestions
- Re-explain every time
- Easy to go off-track

VS

With a Gem

- Deep, expert-level answers
- Knows your role and goals
- Challenges your thinking
- Stays in character always
- Focused and consistent

Works on: Gemini (Gems) | ChatGPT (Custom GPTs) | Claude (System Prompts)

Same question, completely different quality of answer.

Gem Ideas for Every Student

The UX Critic

Brutally honest design feedback like a senior designer

Best for: design students, frontend devs

The Startup Mentor

Challenges your business ideas with sharp, realistic quest

Best for: entrepreneurship students

The Study Coach

Explains concepts like a patient tutor, with examples

Best for: all students

The Senior Engineer

Reviews code, explains tradeoffs, suggests best practices

Best for: CS students and developers

SAVE THIS

Your 3-Step Cheat Sheet

1

Explore the Persona

Ask AI: 'What are key traits of [expert]?' and save the answer

2

Build the Gem

Name it, describe it, paste the persona from Step 1 as instructions

3

Ask Smart Questions

Start a new chat and ask the expert-level questions you need

Pro tip: Build one Gem per subject and reuse it every week!

LAB TIME! Build Your First Gem

1

Open Gemini and start a new chat

2

Paste: "What are the key traits of a highly competent [expert]?"

3

Copy Gemini's full response

4

Go to Gems in the menu and click New Gem

5

Name it, describe it, paste the traits as instructions

6

Start a new chat and ask your first expert-level question!

Share what expert Gem you created in the comments!

One Question For You

Which expert Gem would help you the most right now?

A

The UX Critic for design feedback

B

The Startup Mentor for business ideas

C

The Study Coach for learning better

Comment A, B, or C below!
