Hi, I'm Kainat!
Today we learn meeting summaries

Sound familiar?

- You leave a meeting with 20 things
- You forget half of them by lunch
- No one knows who owns what
- You schedule another meeting...

AI fixes this in under 2 minutes.

Lightbulb Moment

Your meeting transcript is already a goldmine.

Most people read a transcript and still miss things. AI reads it in seconds and pulls out every action, decision, and owner.

Your Copy-Paste Prompt

COPY-PASTE PROMPT

Acting as [a senior project manager],
generate a report based on the
attached meeting transcript.

The report must include:

- Meeting Summary (3-5 sentences)
- Action Items (owner + deadline)
- Key Decisions Made
- Blockers or Risks
- Next Steps

STEP 2 of 2

Evaluate Your Report with AI

In the same chat, ask AI to review its own output. This catches gaps and makes the report much sharper.

01 Brevity

Is it short enough to actually read?

02 Clear Action Items

Does everyone know what to do?

03 Clarity

Could a new person understand this?

Evaluation Prompt

COPY-PASTE PROMPT

Evaluate the report you just created using these criteria:

- Brevity: Is it concise and scannable?
- Clear Action Items: Is each task assigned with a deadline?
- Clarity: Can someone who missed the meeting understand it fully?

Then give me an improved version.

Before AI vs After AI

What you need	Without AI	With AI
Meeting notes	Scattered bullet points	Structured, formatted report
Action items	Buried in a long email	Clear list with owners + dates
Decisions made	Half the team forgets	Documented in seconds
Follow-up	Another meeting needed	Prompts ready to send
