

Day 14

Hi, I'm Kainat!

AI Simplified Series ♦

Talk TO Your AI Not Just AT It

Gemini Live changes how you practice,
prepare and think out loud

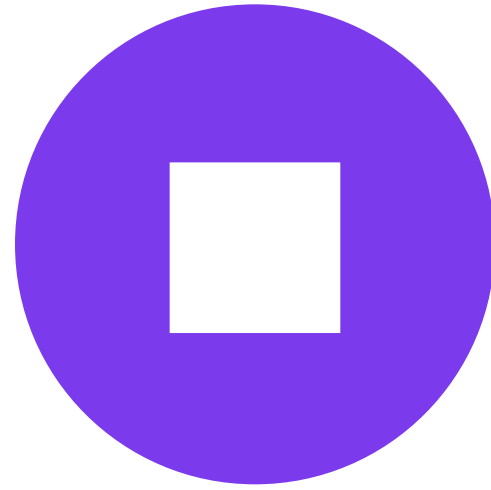

Real prompts + Lab inside ■

Swipe to see how →

Day 14 | AI Simplified Series | By Kainat Nadeem

What is Gemini Live?

**It's a voice conversation
with your AI**

No typing. No prompting.
Just talk naturally.

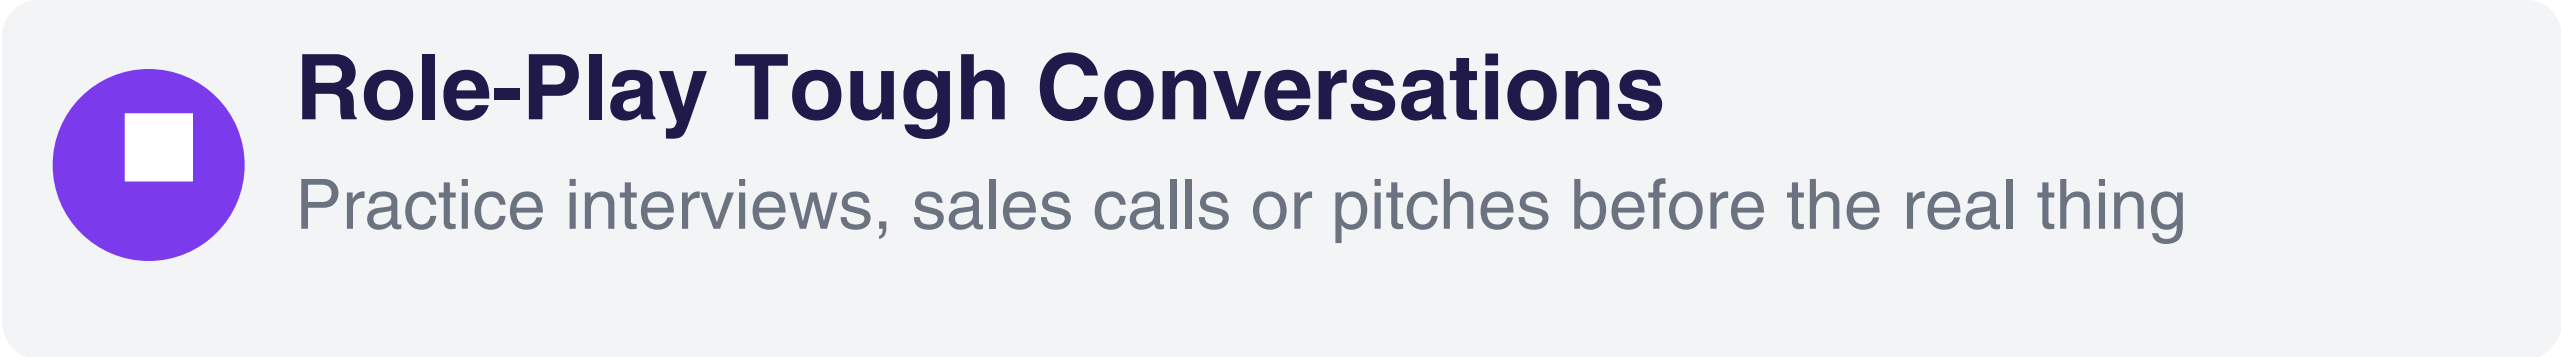

Available on the Gemini mobile app

Tap 'Live' to start a real-time conversation

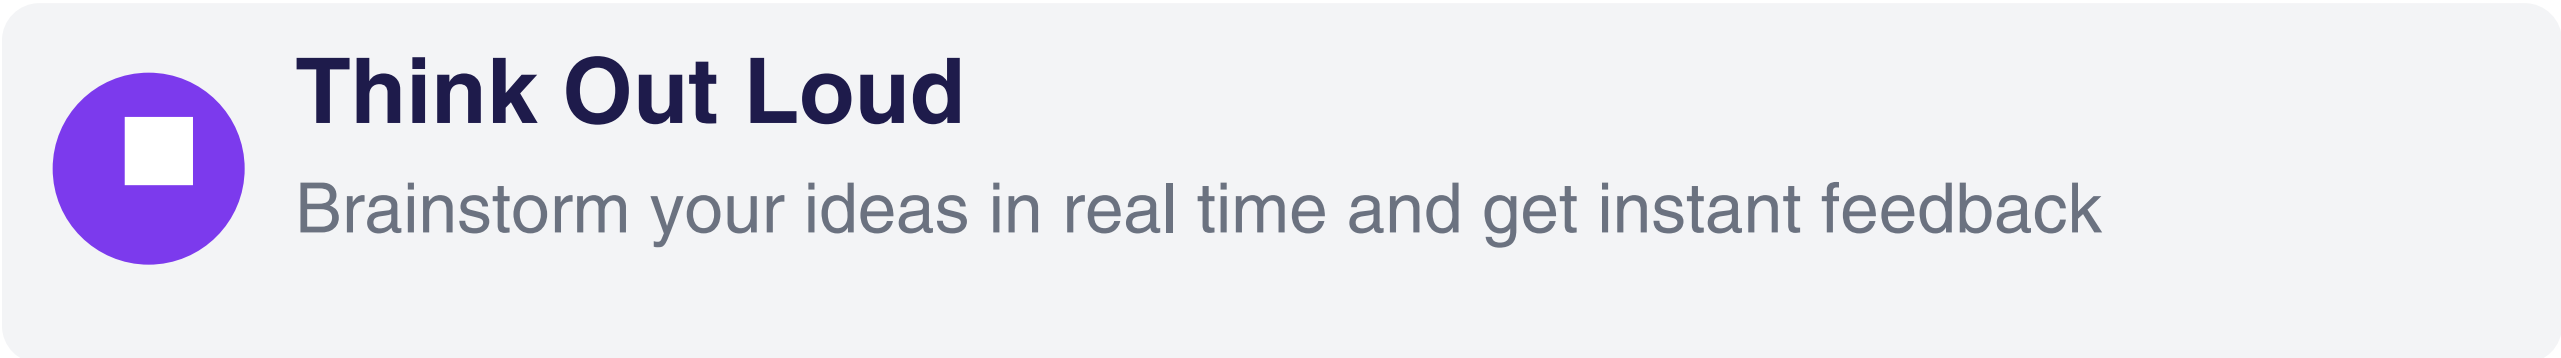

■ **Think of it as a smart conversation partner, not a search bar**

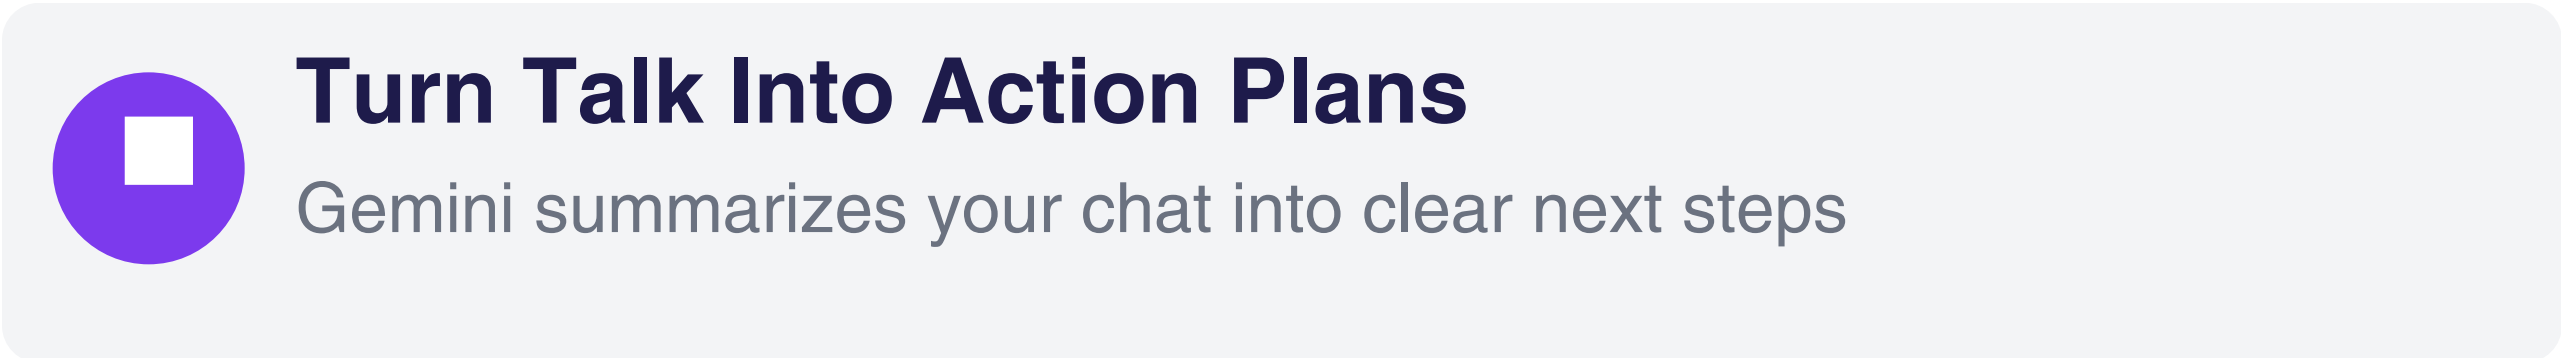

3 Things You Can Do With It

Practice interviews, sales calls or pitches before the real thing

Brainstorm your ideas in real time and get instant feedback

Gemini summarizes your chat into clear next steps

Before vs After Gemini Live

■ **Without It**

Practice alone, no feedback

Type long prompts every time

Ideas get lost in your head

Hard to prep for tough questions

No way to refine your pitch

■ **With It**

AI plays the other person for you

Just talk, it understands context

Brainstorm and capture instantly

Simulate any scenario on demand

Get coaching and instant critique

How to Start in 3 Taps

1

Download Gemini App

Available on iOS and Android, it's free

2

Tap the Live Button

You'll see a waveform and it starts listening

3

Just Start Talking

No special phrasing needed, speak naturally

■ **Pro tip: Set the scene first, tell it what role to play**

Real Example: Practice a Sales Pitch

YOU:

"I need to make a sales call. Let's role-play."

GEMINI LIVE:

"What are you selling? I'll play the customer."

"Thank you for calling. How can I help you?"

↓ After Practice

Gemini gave feedback:

- Strong opening with empathy
- Good at asking discovery questions
- Could be more specific about your solution

■ **This took 5 minutes. It used to take hours of prep.**

From Idea to Action Plan (Live Flow)

■ Idea Pops In Your Head

■ **Talk it out with Gemini Live**

- Gemini asks smart questions

■ You say 'Summarize this into an action plan'

■ **Share it with your team!**

COPY-PASTE PROMPT ■

Open Gemini Live and say this:

"I need to practice [situation].
Play the role of [person].
Be realistic and a little challenging.
After we finish, give me feedback
on my strengths and what I can
improve."

Replace [] with your own scenario

Example fills:

- [situation] = a job interview for a software role
- [person] = a tough interviewer who asks hard questions
- [situation] = pitching my startup idea to an investor

Who Is This Perfect For?

Students

Practice presentations + viva questions

Job Seekers

Simulate real interviews before the big day

Entrepreneurs

Pitch your startup idea, get hard questions

Developers

Think through architecture decisions out loud

Content Creators

Brainstorm ideas and build content plans fast

Your Gemini Live Cheat Sheet

 **SAVE THIS**

- Open Gemini app on your phone
- Tap Live to start a voice session
- Set the scene: tell it what role to play
- Have a real conversation, not a prompt
- Ask for feedback after the session
- Say 'Summarize into an action plan' at the end
- Share the plan with your team or notes

■ LAB TIME!

Your 5-Minute Challenge:

- 1 Open the Gemini app on your phone
- 2 Tap Live and say the copy-paste prompt
- 3 Pick any scenario (interview, pitch, idea)
- 4 Have a 3-minute conversation with it
- 5 Ask for feedback then say 'summarize'
- 6 Screenshot your action plan!

Comment 'LIVE' and share your scenario below!

One Question For You

Which Gemini Live use case
would help YOU the most?

A Role-play tough interviews

B Brainstorm and build action plans

C Practice presentations or pitches

Comment A, B, or C below!

Or comment LIVE if you want my starter prompt pack
