

Build with AI: Research Summaries

Upload your sources. Get smart answers. In minutes.

Hi, I'm Kainat!

Today we learn how to use
NotebookLM to research smarter.

Upload Sources

Ask Questions

Get Summaries

Used by 500+ students

Swipe to learn all 3 steps

Scroll through all 12 slides for the full system!

What even IS

NotebookLM?

Think of it like a personal tutor
who already read all your files.

It only answers from YOUR sources. No random internet stuff.

- 1 You upload PDFs, videos, or websites
- 2 NotebookLM reads and indexes everything
- 3 You ask questions and get cited answers

It's like Google, but only for YOUR documents!

Lightbulb Moment

**Most students read a 30-page PDF
and remember almost nothing.**

NotebookLM reads it, finds the key points,
and answers your exact question with a citation.

Without NotebookLM

Read 3 hours, take messy notes,
still miss the main point

With NotebookLM

Upload in 2 mins, ask questions,
get cited answers instantly

That is your new research superpower.

Work smarter, not longer.

Before AI vs After AI

What you do	Before AI	After AI
Find sources	Manual Google (hours)	Upload & done in 2 min
Read content	Read 10+ docs yourself	AI reads all for you
Ask questions	Ctrl+F and guess	Chat with your docs
Cite sources	Track manually	AI cites automatically

Which column do you live in right now?

STEP 1 of 3 Upload Your Sources

NotebookLM can read pretty much anything.

■ **PDF** Research papers, study notes, slides

■ **Website** Blog posts, news articles, any URL

■ **YouTube** Paste a video link, it reads the transcript

■ **Podcast** Paste a YouTube podcast link directly

COPY-PASTE PROMPT

Go to notebooklm.google.com

Click "Create a New Notebook"

Upload any file, paste a URL or YouTube link

STEP 2 of 3 Get Your Summary

Ask for a summary and watch it pull from YOUR sources.

It gives you citations like [1] [2] [3]
so you can verify every single claim.

This is responsible AI. No hallucinations from random websites.

Why citations matter:

Accuracy

Every fact links back to your original source

Honesty

You can fact-check before you share anything

Trust

Professors and employers respect cited work

COPY-PASTE PROMPT

Summarize the key learnings from these sources
in one page. Include the most important ideas.

STEP 3 of 3 Ask Questions

NotebookLM is not a search engine. It is a conversation.

You ask:

"Do any of these sources talk about testing color in design?"

NotebookLM answers:

"Yes. Source [2] discusses A/B testing for color and Source [3]"
"covers contrast ratios for accessibility."

Try these power questions:

What are the 3 main arguments across all my sources?

Which source contradicts the others?

Explain [concept] in simple terms.

One question can replace hours of reading.

BONUS The Studio Panel

On the right side you see extra superpowers.

■ Audio Overview

AI turns your sources into a podcast episode

■ Video Overview

Animated video summary of your documents

■ Mind Map

Visual map of how all ideas connect

■ Study Guide

Auto-generated questions to test yourself

■ Briefing Doc

2-minute summary for quick review

All of this runs from YOUR sources only. No random AI stuff.

When Should You Use This?

NotebookLM is perfect for these situations:

■ Exam Prep

Upload your lecture slides. Ask: What is likely to be tested?

■ Assignment

Upload research PDFs. Ask it to find gaps in the literature.

■ Job Research

Upload a company report. Ask: What are their main challenges?

■ Podcast Fan

Upload a YouTube link. Get key takeaways without watching it.

■ Group Work

One person uploads everything. Everyone can ask questions.

If you have files, you have a reason to use this.

Your 3-Step Cheat Sheet

SAVE THIS

1

Upload

Add your PDFs, URLs, or YouTube links to a notebook

2

Summarize

Ask: Summarize the key learnings in one page

3

Ask

Chat with your sources. Ask anything. Check citations.

Pro tip: Run all 3 steps in the SAME notebook!

Step 1

Go to notebooklm.google.com (free with Google)

Step 2

Click "Create a New Notebook"

Step 3

Upload a PDF, paste a YouTube link or a website URL

Step 4

Paste this prompt: Summarize the key learnings in one page

Step 5

Ask a follow-up question about one thing you don't understand

Step 6

Try generating an Audio Overview from the Studio panel

Share what source you uploaded in the comments!

One Question For You

Which of these 3 features
are you trying FIRST?

Be honest. There is no wrong answer!

A

Summarize my notes

B

Chat with my
sources

C

Generate an audio
podcast

Comment A, B, or C below!

Or comment "NOTEBOOK" for my free prompt pack!
